PROFESSIONAL SUMMARY

Front-End Developer specializing in **React**, **Next.js**, and **TypeScript**, building responsive, accessible, and high-performance web applications. Experienced integrating Generative **AI** workflows into the frontend, managing complex client-side state and data fetching, and delivering polished, maintainable products end-to-end.

TECHNICAL SKILLS

Frameworks & Languages: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3.

State & Data Management: Zustand, TanStack Query (React Query), Redux Toolkit, Context API.

Styling & UI: Tailwind CSS, shadcn/ui, Chakra UI, Framer Motion.

Libraries & Auth: Vercel AI SDK, React Hook Form, dnd-kit, Leaflet, JWT, OAuth.

Tools & Backend: Git, GitHub, RESTful APIs, Postman, Strapi CMS, ESLint, pnpm, Vite.

Fundamentals & Soft Skills: C++, OOP, Data Structures, Algorithms, Problem Solving, Mentoring, Adaptability.

WORK EXPERIENCE

Front-End Developer — Core Team Member | GDG On-Campus Zagazig

Dec 2024 – Sep 2025

- Mentored 20+ students in frontend fundamentals, accelerating their learning.
- Led 5+ technical workshops and community events to strengthen local frontend engineering skills.
- Shipped community web solutions, maintaining quality through 20+ weekly code-review and pair-programming sessions.

Competitive Programming Trainee | ICPC

Feb 2025 – Apr 2025

- Ranked **Top 10** trainee (**2,321 points**) by solving **139** algorithmic challenges in **C++**, applying advanced data structures to optimize time and space complexity.

Front-End Developer Intern | ITI (Information Technology Institute)

Jul 2024 – Sep 2024

- Completed 150 hours of hands-on frontend training in React hooks, component lifecycles, and API integration.
- Delivered 10+ practical tasks and a full-stack graduation project meeting strict industry-standard UI/UX requirements and deadlines.

PROJECTS

SprintifAI — AI-Powered Productivity

React 19, TypeScript, Zustand, TanStack Query, REST APIs, FullCalendar, VideoSDK

Workspace

Demo: x-cloud-frontend-2wj3.vercel.app • **Code (Team Repo):** github.com/XCloud69

- Collaborated in a cross-functional team to build a unified AI workspace integrating email, video conferencing, document search, and smart scheduling.
- Architected the Calendar module from scratch, implementing bidirectional Google Calendar sync, drag-and-drop scheduling, and full Arabic RTL support.
- Built complex event forms (React Hook Form, Zod) and managed real-time reminders and optimistic UI updates using Zustand and TanStack Query.

Axon Dashboard — AI-Powered ERP

React, TypeScript, shadcn/ui, Vercel AI SDK

Demo: axon-dashboard-wpvz.vercel.app • **Code:** github.com/emanmohamedsr/axon-dashboard

- Architected the entire ERP platform from scratch, including custom UI/UX, theming, and branding, using **React** and **shadcn/ui** across 10+ reusable UI components.
- Integrated **Google Gemini** via the **Vercel AI SDK** to power "EVE", a real-time streaming AI assistant with a custom backend pipeline.
- Built an interactive **dnd-kit** Kanban board and **Leaflet** map, optimizing global state and caching with **Zustand** and **TanStack Query**.

Game Hub — Game Discovery Web App

React, TypeScript, TanStack Query, Zustand, Chakra UI

Demo: game-hub-two-sandy.vercel.app • **Code:** github.com/emanmohamedsr/game-hub

- Built a responsive SPA consuming the RAWG Games API with TanStack Query for optimized data fetching and caching.
- Implemented infinite scrolling and advanced multi-category filtering using Zustand for clean state management.
- Enhanced UI/UX with skeleton loaders, dark/light theming, and offline-status detection.

EDUCATION

Bachelor of Science in Computer Science (B.Sc., Honors) | Zagazig University

Sep 2022 – Jul 2026

GPA: 3.87 / 4.0 (Excellent) • Graduation Project: SprintifAI (Grade: High Excellent)

LANGUAGES

Arabic: Native • English: Very Good (Professional)
